🌐 Portfolio

Objective

Information Technology student with interests in software development, machine learning, and problem-solving. Passionate about learning new skills and developing practical solutions to real-world challenges.

Education

Government Engineering College Gandhinagar (GTU)

Bachelor of Engineering in Information Technology

Current CPI: 8.19 / 10

Gandhinagar, Gujarat

Aug 2023 – Present

Prayag Vidhya Sankul

Higher Secondary Certificate (HSC), GSEB

Result: 77%

Junagadh, Gujarat

2023

Sandipani Vidhyalaya

Secondary School Certificate (SSC), GSEB

Result: 86%

Amreli, Gujarat

2021

Projects

Stock Management & Billing System

May–Jun 2026

Retail inventory and sales management platform

- Tools & Technologies: React.js, Node.js, Express.js, MongoDB, Chart.js, Python.
- Automated inventory management, billing operations, and product tracking.
- Implemented barcode generation, real-time stock monitoring, and invoice generation.
- Developed sales analytics dashboard and transaction history monitoring.

Plant Disease Detection System - AgriCal

May 2026 – Present

Deep learning-based plant disease classification platform

- Tools & Technologies: React.js, Node.js, Express.js, MongoDB, Python, TensorFlow, Keras, NumPy, API.
- Developed a deep learning model for plant disease detection using leaf images.
- Integrated API to provide disease descriptions, symptoms, and treatment recommendations.
- Implemented image upload, prediction history, and disease diagnosis management features.

Real Estate Management System

Feb - Apr 2026

A web application for listing, discovering, and managing real estate properties.

- Tools & Technologies: React.js, Node.js, Express.js, MongoDB
- Developed a secure full-stack web application with JWT-based authentication, role-based authorization, and a modular backend architecture.
- Built RESTful APIs for property listing, updating, deleting, and user profile management.
- Integrated Cloudinary for image uploads and built an admin dashboard for user management, property listing moderation, approval workflows, and platform monitoring.

Technical Skills

Languages: Java, JavaScript, Python, C, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, NumPy, Pandas, Scikit-learn, TensorFlow, Keras

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman

Core Coursework: Data Structures & Algorithms, DBMS, Object-Oriented Programming, Software Engineering

Achievements & Hackathons

LeetCode 100 Days Badge (2026)

Profile

CodeStorm 2026 Finalist

Fusion Fest, GTU-SET

- Developed **Digital Suraksha**, an AI-powered cybersecurity threat detection system for identifying and mitigating potential cyber threats.
